

## JOHN ENGLAND

I spent much of my career working from and creating detailed engineering, two dimensional drawings in black and white.

I joined the Tuggerah Lakes Potters in 1980 and did hand built pottery and sculpture, teaching children from six to eighteen years at the Lake Haven Community Centre for twelve years.

I spent a few years with the Central Coast Water Colour Society then later joined Art Lovers Movement where I have learned, and am still learning, how to use colour from our monthly demonstrators and my fellow budding artists.

More recently I have joined a group of like minded art people at Wangi for weekly workshop days.

My preferred medium during my development has been 'realism' in acrylics but have now ventured into pencil drawing. For more information regarding my art you contact me at [johnengland@internode.on.net](mailto:johnengland@internode.on.net)

AFTERNOON DEPARTURE  
100 X 75 Acrylic on canvas, unframed \$400
