

**ROBIN RIXON** Having moved to Lake Macquarie in 2009 for our retirement years, I was at last able to concentrate on my art and spend time with like-minded people. As you can see it would be too big a stretch of the imagination to actually call my work space a "studio", however you would probably be surprised how many works have been produced from this part of our garage. Not only mine but those of pupils, both children and adults. Many a fun time has been had here in "my little corner of the world" and I hope there are many more to come. Believe it or not, I do actually know where everything is!
